Residential on 0.11 Acres

Beacon Hill, Sylvan Lake, Alberta

Looking for the perfect home to start, or raise, a family? Then look no further! This beautiful, open-concept home is located across the street from the Beacon Hill Elementary School and has plenty of room for the kids to play. The main floorâ€™s vaulted ceiling and large, south-facing windows let in an abundance of natural light, and makes this space feel even larger than it is. The kitchen has ample cupboard space, a corner pantry, stainless steel appliances and a new (2025) french-door style fridge. The spacious master bedroom easily fits a king-sized bed with room to spare. It also has two closets and a three-piece ensuite with a two-person shower stall. The main floor also contains a second full bathroom, and a bedroom with a large closet.

The fully-finished basement gets a surprising amount of sunlight year-round, keeping it bright, while the infloor heat keeps it extra cozy during the cold months. The basement also features a third full bathroom, third bedroom, dedicated laundry room, and a new hot water tank (2024).

This backyard is not to be missed! There is a small fenced area, perfect for a small dog, that is surrounded by raspberry bushes. The extra wide gravel pad easily parks two trucks/SUVs with room to spare. The raised garden boxes are the perfect place to grow your own food - or if you prefer - can easily be removed to transform the space into a firepit area. The

catio is the perfect shaded spot to relax. All this, and the backyard still has a large grass area for the kids to play.
